

PROGRAM REVIEW SCHEDULE May 2026

About this schedule

This schedule outlines the years during which each program area will engage in the required institutional program review process per Policy 3-11. The process takes 1–2 years to complete the first five phases. Each year, the Education Team reviews the schedule, consults with chairs, and advises the Vice President, Academic on the final version, which is then made public.

Reports and documents are made public to the NIC community on the NIC Program Review SharePoint site. The Final Report and Action Plans, along with the One-Year Follow-Up Report, are also shared on the NIC public website.
